The Asian Institute of Technology (AIT) is an internationally recognized, engineering, environment, and management studies institution, focusing on engineering, information and data science, and management. AIT offers academic, research, and experiential outreach programs prepared graduates for professional success and leadership roles in Asia and beyond.

Located in AIT offers the opportunity to study in an institution in Asia which provides a global reputation. Being forward, AIT will be stressing its global outreach programs prepare graduates for professional success and leadership roles in Asia and beyond.

Founded in 1959, AIT offers the opportunity to study in an institution in Asia which provides a global reputation. Being forward, AIT will be stressing its global outreach programs prepare graduates for professional success and leadership roles in Asia and beyond.

Entrepreneurship

An AIT Entrepreneurship Center will be established in Fall 2019. This center will support the entrepreneurial thinking and opportunities in students, staff and faculty, and provide programs, mentorship, skills, and services that accelerate local and regional businesses. The center aims to enhance the region’s capacity to foster socio-economic development through hands-on knowledge transfer as well as experiential outreach programs.

Scholarships & Fellowships

AIT offers a wide range of scholarships and fellowships for international research and teaching faculty, and as well as high-quality researchers and aspiring leaders.

Degrees Offered

AIT offers Doctoral and Master’s degree programs in a wide range of disciplines and Certificate programs.

Universities

AIT offers Doctoral and Master’s degree programs in a wide range of disciplines and Certificate programs.

WHY CHOOSE AIT?

OUTSTANDING faculty and academics, supported by the AIT commitment to excellence and quality

INNOVATIVE interdisciplinary programs and partnerships across many fields of study

PERSONAL attention from faculty experts who teach in small class sizes

ACCESS to experienced business executives, enterprises, NGO’s and governments in Asia

NETWORK of internationally recognized partner universities

CONNECTION to almost 25,000 postgraduate level alumni from 100 countries

O U T S T A N D I N G C E N T E R S

Asian from academic fields of study in three AIT Schools, three Outreach Centers on the interconnected AIT education and research with society.

AIT Extension
- Conferring education, short-course training, workshops, seminars

AIT Solutions
- Entrepreneurial organizations/Solutions in engineering, environment and management

Geoinformatics Center
- Programs in remote sensing and Geoinformatics in Asia

Regional Resource Center for Asia and Pacific
- Contribution of Asian region’s environment and sustainable development goals

Asian Center of Innovation for Sustainable Agriculture Intensification
- Innovative development of sustainable agriculture intensification in Asia

Center of Excellence in Nanotechnology
- Research and Development in Nano-technology

Internet Education and Research Laboratory
- Research, training, and programs in Internet development topics

ARTificial Intelligence Technology Center
- Research, advising, and development in ART

AIT Center Vietnam
- Research, training, and consulting in Vietnam

O U T R E A C H C E N T E R S

Dr. Subin Pinkayan
PhD holder, Institute Scholar, Executive Director, Program Director of Outreach Programs Farnam Institute of Finance, Technical University of California, USA

I graduated from AIT in 1991 and had a scholarship to go to France and then to Colorado State University where I got my PhD majoring in Hydrology. I have used all knowledge which I got from AIT and CSU. It has allowed me to be where I am today.

Miss Sadichka Shrestha
2017, Master of Business Administration (MBA)
Brand Manager, Volkswagen Nepal (Miss Nepal World 2010)

AIT changed my life in many ways. AIT is where we report the way to interact and function in a multicultural environment. It was a wonderful experience being amongst experienced, dynamic professors who expanded our knowledge beyond the books and provided us with tools to solve real world problems. I will always be grateful to AIT for building a strong foundation where I could build my professional career.

Professor Parameswaran Kumar Mallikarjuna
1988, BEng, Applied and Chemical Engineering (BSc Eng), Institute Scholar, Professor in Fuel Conversion Technology

An AIT degree provides opportunities to learn about other cultures around the world and become more confident in presenting your ideas to a wide range of audience. In addition, AIT experience enhanced my capabilities to come up with independent research ideas and pursue the passionate research topics. I am involved in development projects related to sustainability at AIT to work on appropriate technologies to support the development goal.
